

DEPARTMENT OF POLITICAL SCIENCE

Statement of intent -

Master's Programme in Political Science: Environmental Governance and Behavior

Name:

Email address:

Use this template to answer the questions below. NB! You can use a maximum of 1000 characters (including blank space) to answer each question. Your answers will be assessed based on their relevance and structure, as well as the clarity and correctness of the language.

Please list your three most relevant academic and/or non-academic experiences and describe how they have been important for your interest in the Master's Programme in Political Science: Environmental Governance and Behavior (MaPSE), as well as how they have contributed to preparing you for the issues addressed in this programme.

What are your personal, as well as professional goals and ambitions, and how do you think MaPSE helps you in your pursuit of these?

Please briefly describe: 1) the kinds of academic writing you have practiced during your previous education and to what extent, 2) the individually produced written assignment from your previous education that you attach to your application (topic, length of the paper, what language it was written in and what type of writing task it was, e.g. thesis, essay, literature review, research plan, research article, or something else).
